B.S. Applied Statistics (+ Tech. Mgmt.); University of California, Davis; *GPA: 3.5*; Dean's Honors List (2x); Edward Kraft Scholar

RELEVANT PROFESSIONAL EXPERIENCE + CAPSTONE PROJECT

Capstone: Data Pipeline, Prague Metro System (simulated), Salem OR May 2026 – Present

- Building an end-to-end data pipeline with (simulated) data from the Prague Metro System.
- Ingested data from multiple sources (RDBMS, API endpoint, JSON collections) using Airflow, saved snapshots in Amazon S3, performed transformations, loaded onto data warehouse, and displayed business insights through Grafana dashboards.

Market & Strategy Consultant, West Salem Machinery, Salem OR (part-time) Aug 2025 – May 2026

- Rehired by WSM's executive team to extend market research and strategy work following a high-impact summer internship.
- Assisted the new VP of Finance in building 2027 strategy and budget forecast for the Gerlinger product line.
- Partnered with WSM's AI team to test and enhance a decision-support model for sizing grinding and screening equipment > helped fasten the sales quoting process, leading to faster turnover and higher customer retention.

Market Research & Strategy Intern, West Salem Machinery, Salem OR May 2025 – Aug 2025

- Built demand forecast and capital budgeting models to assess ROI of manufacturing expansion scenarios.
- Analyzed 8 industries to size TAM, assess growth potential, and evaluate product-market fit for Gerlinger straddle carriers.
- Quantified new market opportunities using equipment specs, usage environments, and buyer trends.
- Delivered strategic recommendations to CEO, COO, and VP of Sales & Marketing, which are being implemented as of May 2026.

Lead Consultant, Cycle Oregon, Portland OR (remote) Jan 2025 – Apr 2025

- Led an 8-member team to develop a strategic plan reversing declining ridership for Cycle Oregon's flagship events.
- Analyzed 5 years of rider data and 1,100+ survey responses; crafted alumni engagement strategies projected to increase repeat participation by >10%.
- Interviewed and benchmarked Cycle Oregon's events against 5 peer organizations to identify actionable improvements.
- Identified \$500K+ in grant opportunities and developed a grant-readiness checklist now used by the organization.
- Delivered a 40-page recommendations report and presented a data-driven strategic roadmap to the Board and Executive Team.

Business Manager, The Collegian of Willamette University, Salem OR (part-time) Sept 2024 – Apr 2026

- Responsible for the \$100,000 annual budget, operations, and strategic planning of the organization.
- Reduced operational expenses by 10% (savings over \$10,000), revived external print advertising business (+25% ad revenue), and boosted campus print readership by 20%.

Information Technology Analyst, University of California, Davis, Davis CA Dec 2021 – Aug 2024

- Promptly addressed and meticulously recorded user requests for IT assistance and troubleshooting, increasing customer satisfaction by 20% over the final 12 months of my tenure.
- Awarded for having the most hardware assets (computers, tablets) under management, which was more than 100.
- Diagnosed and resolved hardware, network, and connectivity challenges, ensuring customer satisfaction.
- Oversaw the configuration and deployment of computer hardware and software to end-users.
